Precautionary Statements - Response		monto Boononco		Precautionary Statem	

<u>Precautionary Statements - Response</u> IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Immediately call a POISON CENTER or doctor/physician IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician Rinse mouth Do NOT induce vomiting

<u>Precautionary Statements - Disposal</u> Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC) Not Applicable

Other Information Harmful to aquatic life with long lasting effects

Petroleum distillates, hydrotreated light 64742-47-8 <20		Chamical		N/INFORMATION ON INGRE	-	Trada Soorat
4 FIRST AID MEASURES Seneral Advice If swallowed or in case of persistent eye or skin irritation, call a poison control center or physician immediately. Inhibition Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breating is difficult, give oxygen. Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a phys cian immediately. Inser mouth. Do NOT induce vomiting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a phys cian or poison control center immediately. Skin Contact Rinse skin with plenty of col running water. Wash with soap and water. Wost important symptoms and effects, both acute and delayed Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Iote to physicians Treat symptomatically. Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Jusuitable Extinguishing Media Use determined Spacific hazards arising from the chemical Not determined Protective equipment and precautions for firefighters. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or aquivalent) and full protective equipment as required. Ventilate affected area. <t< th=""><th></th><th></th><th></th><th>CAS No</th><th>Weight-%</th><th>Trade Secret</th></t<>				CAS No	Weight-%	Trade Secret
Seneral Advice If swallowed or in case of persistent eye or skin irritation, call a poison control center or physician immediately. nhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breating is difficult, give oxygen. Sep contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a phys cian or poison control center immediately. Rinse mouth. Do NOT induce vomiting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a phys cian or poison control center immediately. Skin Contact Rinse skin with plenty of cool running water. Wash with soap and water. Wost important symptoms and effects, both acute and delayed Symptoms: Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Integrity: S.FIRE-FIGHTING MEASURES Suitable Extinguishing Media Not determined Dispecific hazards arising from the chemical Not determined Protective equipment and precautions for firefighters. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective equipment as required. Ventilate affected area. nhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breating is difficult, give oxygen. Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a physician or poison control center immediately. Rinse mouth. Do NOT induce voniting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Kin Contact Rinse skin with plenty of cool running water. Wash with soap and water. Most important symptoms and effects, both acute and delayed Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Iote to physicians Treat symptomatically. 5. FIRE-FIGHTING MEASURES Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Insultable Extinguishing Media Use determined Specific hazards arising from the chemical Sh of determined Protective equipment and proceutions for infrighters, As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective equipment as required. Ventilate affected area. Environmental procautions: See Section 12 for additional ecological information. Methods for contalment: Prevent further leak	Seneral Advice	If swallowed or in cas			or physician immediately.	
Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Call a physician immediately. Ingestion Rinse mouth. Do NOT induce vomiting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Skin Contact Rinse mouth. Do NOT induce vomiting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Skin Contact Rinse mouth. Do NOT induce vomiting. Drink plenty of water. Wash with soap and water. Wost important symptoms and effects, both acute and delayed Symptoms: Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Note to physicians Treat symptomatically. Stree-FIGHTING MEASURES Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Unsuitable Extinguishing Media Not determined Sociefic hazards arising from the chemical Protective equipment and precautions for firefighters As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equipment and precautions) Surviconsental precautions: Use extinguishing decla information.					1.5	
cian immediately. ingestion Rinse mouth. Do NOT induce vomiting. Drink plenty of water immediately. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Kin Contact Rinse skin with plenty of cool running water. Wash with soap and water. Most important symptoms and effects, both acute and delayed Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Atote to physicians Treat symptomatically. Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Jinsuitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Jinsuitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Jinsuitable Extinguishing Media Use extinguishing the determined Protective equipment and precautions for firefighters As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. 6. ACCIDENTAL RELEASE MEASURES Personal precautions: Use personal protective equipment as required. Ventilate affected area. Environmental precautions: See Section 12 for additional ecological information. Methods for containment: Prevent further leakage or spillage if safe to do so. Atothed for cleaning up: Dike to collect large liquid spills. Recover free liquid. Absorb with inert material, and then place in suitable container for chemical water Atotice on safe handling: Handle in accordance with good industrial hygiene and safety practice. Storage Conditions: Keep containers tightly closed in a dry, cool and well-ventilated place. Keep locked up and out of reach of children. Protect from freezing. Accord and well-ventilated place. Keep locked up and out of reach of children. Protect from freezing. Accord and w	nhalation	Remove victim to me	sh air and keep at rest in a positior	Comfortable for breathing. In	breating is difficult, give oxy	/gen.
cian or poison control center immediately. Skin Contact Rines skin with plenty of cool running water. Wash with soap and water. Most important symptoms and effects, both acute and delayed Symptoms: Direct contact with eyes may cause temporary irritation. May cause skin irritation and de-fatting of skin with repeated/prolonged contact. Interest symptomatically Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Jusuitable Extinguishing Media Not determined Specific hazards arising from the chemical Not determined Specific hazards arising from the chemical Not determined Specific hazards arising from the chemical Not determined Protective equipment and precautions for firefighters. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or requivalent) and full protective gear. 6. ACCIDENTAL RELEASE MEASURES Personal precautions: Use personal protective equipment as required. Ventilate affected area. Environmental precautions: See Section 12 for additional ecological information. Methods for containment: Prevent further leakage or spillage if safe to do so. Active on safe handling: Handle in accordance with good industrial hygiene and safety practice. Storage Conditions: Keep containers tightly closed in a dry, cool and well-ventilated place. Product Name	SmartWash [®] Dri Wax
--------------	--------------------------------

Whiting Systems, Inc.

Engineering Controls	
Apply technical measures to	comply with the occupational exposure limits.
Individual protection meas	ures, such as personal protective equipment
Evo/face protection	Wear approved safety goggles

Eye/face protection	Wear approved safety goggles.
Skin and body protection	Wear suitable gloves.
Respiratory protection	Ensure adequate ventilation, especially in confined areas.
General Hygiene Consideration	s Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Values	Remarks • Method	Property	Values
рН	7 – 7.5		Specific Gravity	8.5 lbs/gal
Melting point/freezing point			Kinematic viscosity	Not Determined
Evaporation rate	Not determined		Dynamic viscosity	Not Determined
Flammability (solid, gas)	n/a-liquid		Explosive properties	Not Determined
Flammability Limits in Air	Not determined		Oxidizing properties	Not Determined
Upper flammability limits	Not determined		Autoignition temperature	Not Determined
Lower flammability limit	Not determined		Solubility in other solvents	Not Determined
Vapor pressure	Not determined		Solubility in other solvents	Not Determined

10. STABILITY AND REACTIVITY

Reactivity Not reactive under normal conditions <u>Chemical stability</u> Stable under recommended

Conditions to avoid Keep from freezing

Hazardous polymerization Hazardous polymerization does not occur.

Incompatible materials

None known based on information supplied.

Hazardous Decomposition Products

Possibility of Hazardous Reactions

None Kno

Information on likely rout	tes of exposure	Component Informa	ation		
Inhalation	Avoid breathing vapors or mists.	Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Eye contact	Avoid contact with eyes.	Petroleum distillates,	>5000 mg/kg (Rat)	>2000 mg/kg(Rabbit)	>5.2 mg/L (Rat) 4 h
Skin Contact	Avoid contact with skin.	hydrotreated light			
Ingestion	Do not taste or swallow	64742-47-8			
Other adverse effects As	spiration hazard, may be fatel if swallowed and ente	rs airways. <u>Carcino</u>	genicity	Not classifiable as a carcino	ogen.
	12. ECOLOGI	CAL INFORMATION			
Ecotoxicity Harmful to aqu	uatic life with long lasting effects. 4% of the mixture of	consists of components of	of unknown ha	zards to the aquatic enviro	nment.

11. TOXICOLOGICAL INFORMATION

Chemical Name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Petroleum distillates,	2.2: 96 h Lepomis macrochirus mg/L			4720:96 Den-dronereides
hydrotreated light	LC50 static 2.4: 96 h Oncorhynchus			heteropoda mg/L LC50
64742-47-8		mykiss mg/L LC50 static 45: 96 h		
		Pimephales promelas mg/L LC50		
		flow-through		

Persistence and degradability Not determined. Bioaccumulation Not determined. Mobility Not determined. Other adverse effects Not determined.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

DOT Not regulated

Disposal of wastes/Contaminated packaging: Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated packaging: Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

NOTE: Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.

IATA Not regulated IMDG Not regulated

15. REGULATORY INFORMATION

State and national regulations: None known based on information supplied.
